REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: None of the prior art made of record includes a pair of spaced outwardly extending flaps with an open area between the flaps, the fastening structure on the inner surface of those flaps and a complementary fastening structure on the outer surface of the first end. USPN 3,380,504 to Green discloses a similar method of securing a cover to a handle wherein flaps have a fastening structure on an *outer* surface of those flaps. Further, the cover of Green uses those flaps to secure the cover at the "central section" at the lower portion of the entire device (Figures 2 and 3) and do not secure the broom to the handle (13) independently, as the opening shown in Figure 4 is also required.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
